KEY SKILLS

Web development	Javascript
React JS	Python
Java	Debugging

EXPERIENCE

Application Developer

May 2018 - Dec 2018   CIBC, Toronto, ON

- Ensured flawless running of the feature 'Manage My Card' on the CIBC website through scripting its final test
- Boosted the effectiveness of scripts for regression and component testing for CIBC desktop though updating them routinely
- Enabled the effortless transition of UFT from VBScript to Python through setting up the initial environment of Robot Framework Selenium for Simplii Desktop
- Prevented major defects in scripts for regression and component testing related to development through managing them head-on

EDUCATION

Software Engineering Technician Diploma

Sep 2016 - May 2019   Centennial College, Toronto, ON

- Developed websites using Javascript and applications through Java
- Acquired the concept of stable database design for the system through repeated performance of MySQL
- Helped improve the studying habits and fitness of fellow students through designing school computer and gym reservation systems, 'My Computer' and 'Online Gym Booking' respectively applying SDLC concepts, tools and agile methodologies
